

The Net Group (TNG) officers headed by President Carlos Rufino, Executive Vice President Raymond Rufino and Executive Vice President & Legal Counsel Atty. Maria Cristina Samson converge on the site of Bonifacio Global City's (BGC) first electric vehicle (EV) charging facility housed in Net Lima. With them are executives from the offices within Net Lima, including Navarro Amper & Co. (Deloitte), PeroxyChem LLC, Regus Philippines, Marsh Philippines, Inc., Citigroup Business Process Solutions, Pte Ltd., Sony, Google TXVIA, FMC Corporation, IOPEX Technologies.

The Net Group (TNG) reinforces green agenda, with first Meralco electric vehicle (EV) charging facility in Bonifacio Global City. TNG has unveiled the first Meralco Electric Vehicle (EV) Power Station in BGC, underscoring the property developer's commitment to eco-friendly and sustainable transportation system. Net Lima is the country's first certified green building under the local rating system Building for Ecologically Responsive Design Excellence (BERDE), developed by the Philippine Green Building Council (PhilGBC).

According to PhilGBC Chairman and TNG Executive Vice President Raymond Rufino (right photo), "It takes partnerships like the one we have with Meralco to try and push the adoption of electric vehicles by creating the infrastructures. Our big hope is that we'll be able to see more electric vehicles come to the roads of the Philippines. For the first two years, the Meralco EV Power Station in Net Lima will be free of charge - our way to incentivize the market to use electric vehicles."
